TO SETTLERS, SQUATTERS,
HOLDERS AND PURCHASERS OF
LAND.

Survey and Land Agency Office,
No. 7, Macquarie-street, Sydney.

GENTLEMEN—It has been sug-
gested to me, that persons residing
in the country, who are desirous of purchasing
country lands, town or suburban allotments
or of obtaining a leasehold or squatters
licenses, might avoid the inconvenience and
expense of a visit to Sydney, as well as greater
delay, if an agency for transactions of the
kind (which has been long wanted) were
established in Sydney. I beg therefore to offer
my services.

I propose, that the party should
describe the spot to me as accurately as his
knowledge of the locality will allow, that he
should then inspect the Government maps or
plans (which have been long wanted) and
enable him to identify the land, submit his

application for purchase or license in the proper form, watch the progress of the application, and when the application has been approved (funds being provided) and obtain the deed of grant or license, and thus complete the business.

I am willing previously to visit any particular spots, (should it be important to have them carefully defined), and report upon them.

The numerous inquiries which are made by letter at the Surveyor General's Office respecting lands, roads, boundaries, &c., could be more satisfactorily answered by the Surveyor in Sydney, acting as agent, who (besides at head quarters) would require into the actual state of a case, and promptly report thereon. It is to be regretted that a deal of correspondence would be avoided, and in many instances much embarrassment prevented.

It will also be happy to accompany settlers or others to the Surveyor General's Office who may wish to be assisted in searching the books, and have their attention directed to the best localities.

In one particular especially I may render

service to persons desirous of investing capital, and of selecting a selection from those portions that have been sold by the Government, but not being sold, are still open for purchase at the upset price; many of them are of considerable value, and it is proposed to act as an agent in every matter connected with the sale or holding of land under the Government.

It is a great liberty of recommending to you, invariably to have a reduced plan of a land you may purchase, attached to the description, as it materially assists the description, and is of great use in the conveyance, as it may descend, and before accepting an conveyance, or completing a mortgage.

The description of the locality, boundaries, abutments, and the name of the owner, experienced and competent Surveyor. The colony abounds with vague and erroneous descriptions, which have passed from deed to deed.

As many are now improving their Sydney property, and erecting substantial buildings, it is of great importance that the propriety of having their boundaries carefully compared with their deeds of grant.

to assign in the front may be easily ascertained, and the other boundaries require greater attention, and are too often disregarded, whereby great risk is run.

I cannot refrain from taking the present opportunity of acknowledging the kind preference great numbers have shown me since I began my profession as Land Surveyor in Sydney, in 1832. I hope still to retain the confidence of such of my friends as are on the principle with which I commence and shall conduct my surveys, both in town and country, with care and impartiality, in cases of local or disputed claims; particularly when acting as an arbitrator respecting them.

In order to meet the present time, my intention is to publish a few more surveys, and to make so moderate a charge (which may always be known beforehand at my office) that it cannot be objected to by any one, and to supply the same as soon as possible.

I have the honour to be,
Gentlemen,
Your obedient servant,
JOHN ADAM MCALPIN
Formerly Surveyor to the Australian Agricultural Company.

All letters must be post paid.
